PROFESSIONAL SUMMARY

Final-year Computer Science student at COMSATS Islamabad and **Polyglot Engineer** operating at the intersection of **product engineering**, **systems engineering**, and **software engineering**. Skilled across diverse programming languages (Python, Dart, TypeScript, SQL), with proven experience engineering distributed backend microservices, resilient data schemas, and high-impact cross-platform applications across fast-paced startup and enterprise environments.

TECHNICAL SKILLS

Languages:	Dart, Python, JavaScript, TypeScript, HTML5, CSS3, SQL
Frameworks:	Flutter, React, FastAPI, Node.js, Express.js
Databases & Cloud:	Firebase (Firestore, Auth), PostgreSQL, MongoDB, SQLite, Supabase
Tools & DevOps:	Git/GitHub, Docker, Kubernetes, Android Studio, VS Code, Postman, Linux

WORK EXPERIENCE

AI Engineering Intern — Horquva LLC **Summer 2026**
Integration & Ecosystem Engineering • Antares Platform *Wyoming, USA (Remote)*

- Engineered integration services and pipeline workflows for the Antares Platform, connecting operationalized AI capabilities into the core business intelligence ecosystem.
- Constructed modular backend operationalization templates and risk-scoring modules, accelerating service discovery and cross-department audit verification.

Product Engineer — Eynvision Labs **Jul 2026 – Sep 2026**
Systems Architecture & Backend Engineering • The Memoir Project *Islamabad, Pakistan*

- Architected end-to-end database schema (PostgreSQL/Supabase) and Row-Level Security (RLS) policies for 25+ application tables supporting digital memoir journaling.
- Implemented domain-driven FastAPI REST endpoints and Next.js onboarding architecture with strict Zod/Pydantic schema validation.

Technical Intern — Inter Services Public Relations (ISPR) **Jan 2026 – Feb 2026**
Systems Monitoring & Technical Operations *Islamabad, Pakistan*

- Assisted in monitoring and maintaining secure operational systems within a government defense environment.
- Gained exposure to internal protocols, organizational workflows, and technical reporting in a high-discipline setting.

Virtual Assistant — TKC Enterprises **Jun 2024 – Dec 2025**
Web & Digital Operations *New Jersey, USA (Remote)*

- Built and maintained business websites and eCommerce stores using WordPress and BigCommerce, streamlining catalog management and order fulfillment.

PROJECTS

HireFly.ai — Mobile Recruitment & AI Interview Platform | *Flutter, Dart, Firebase* **GitHub**

- Built a production-grade cross-platform mobile application with Flutter and Dart, supporting real-time candidate evaluations, job exploration, and automated interview practice.
- Integrated Firebase for seamless authentication, cloud messaging, and realtime data synchronization.

Cash Pilot — Personal Finance & Expense Tracker App | *Flutter, Dart, Provider, FL Chart* **GitHub**

- Developed a comprehensive personal finance mobile app featuring expense tracking, budget analysis with fl_chart, and reactive state management.

EDUCATION

COMSATS University Islamabad **Islamabad, Pakistan**
Bachelor of Science in Computer Science *Sep 2023 – Jun 2027*

- Relevant Coursework: Mobile App Development, Object Oriented Programming, Data Structures, Advanced Database Systems, DevOps for Cloud Computing.
